SOREC

MOROCCO INTERNATIONAL MEETING

12TH EDITION

21 & 22 NOVEMBER 2026

CASABLANCA ANFA - RACECOURSE

INTRODUCTION

ABOUT THE RACES

SOREC is honored to welcome you to the 12th edition of the Morocco International Meeting, which will take place on Saturday 21st November & Sunday 22nd November 2026, at Casablanca – Anfa Racecourse. This major event will showcase both national and international horses, trainers and jockeys, aiming to enhance the international promotion of the Moroccan horse racing industry.

We are delighted to invite international runners for this event, which has established itself over the years as a must-attend occasion on the international horse racing scene. Your presence does not only contribute to the success of this prestigious meeting but also to the global recognition of Moroccan horse racing.

The weekend includes prestigious horse racing and Morocco's finest hospitality with many surprises awaiting you, promising a fantastic weekend.

We look forward to welcoming you to Casablanca and wish you an excellent Morocco International Meeting 2026.

SUBSIDIES AND INCENTIVES

HEALTH

For the temporary admission of horses participating in the Morocco International Meeting, the transit formalities and the main documents to be prepared are:

1. HEALTH RECORD:

SANITARY CERTIFICATE AND LABORATORY ANALYSES:

All horses must be provided with a veterinary sanitary certificate (VSC), validated by the official veterinary service and not by a private veterinarian, along with the original test result reports stamped and signed by the same official veterinarian who prepared the sanitary certificates.

In addition to the usual certifications regarding the sanitary and epidemiological status of the country and/or the establishment of origin, the VSC must include laboratory analyses:

- Test for Infectious Anemia (Coggins test within 30 days prior to loading).
- Test for Equine Viral Arteritis (Seroneutralization test):
  – For horses from France: test within 28 days before departure.
  – For horses from Spain: test within 21 days before departure.
  – For horses vaccinated against EVA: a second test must be carried out with a minimum interval of 14 days.
- Test for Dourine and Glanders: within 15 days following export if the horse has stayed in another country (excluding Canada and the USA) during the last 6 months, or has left the territory since birth. These two tests are not required if the horse has remained within the territory of the EU, the United Kingdom or Switzerland for the last 6 months.

In addition, two other mandatory tests must also be carried out:

- Test for African Horse Sickness: Indirect ELISA test or blocking ELISA test within 21 days before departure.
  – For horses from the UAE and Qatar: A single test 10 days before departure is mandatory for non vaccinated horses, and two tests on blood samples at intervals of 21 to 30 days, with the second sample taken within 10 days prior to loading, for vaccinated horses.

- Test for Surra: ELISA test or card agglutination test within 15 days prior to loading.

VACCINATIONS:

Horses must be properly vaccinated against 2 diseases:
- Equine influenza.
- Equine Rhinopneumonitis (EHV).

2. CUSTOMS FORMALITIES:

All horses and equipment must be recorded in an ATA carnet, available at chambers of commerce. The ATA Carnet is obligatory because it allows to dispense with taxes and the deposit of the import bond. The conveyance must be equipped with the «MA authorization» available at the transport department. If this conveyance is included in the ATA carnet, this authorization may not be requested. It is strongly recommended that copies of the documents be forwarded in advance to freight forwarders and / or the organization, to ensure validity and to provide control and transit in the best conditions. Facilities and assistance will be put in place at the border post in order to ensure a smooth transit.
